DETAILED ACTION

Claims 1-16 are pending.

Restriction

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 5-8 drawn to a method of tanning the human body.

Group II, claims 9-16, drawn to a cosmetic formulation.

Claims 1-4 are nonstatutory and will be grouped when applicant amends the claims to conform to US practice.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common technical feature in all groups is a self-tanning composition. This element cannot be a special technical feature under PCT Rule 13.2 because the element is shown in the prior art. US Patent 6,403,062 B1 teaches a similar composition that has a sun-block and tanning effect (see examples 1-3). The invention of the instant application lacks a

special corresponding technical feature and does not make a contribution to the prior art. Therefore, the claims cannot be said to have unity of invention.
